**FAR RIGHT**

**REGULAR PEOPLE**

Why is it that the far left, the far right, and justin beiber are all equally terrible?

step 1: make a linear model of the political spectrum from far left to far right.

step 2: Convert the linear model (line) into a circle.

step 3: Visualize the results. Opposite ideology in a linear path, is the essentially the same ideology when you go full circle. Far Right becomes Far Left under the scope of Autocracy.

80% of the world are logical thinkers, have a diverse set of opinions, are tolerant of others and believe in freedom and human rights.

20% of the world are flat out DICKS.

Disclaimer: Is Justin Bieber really a far right fascist? We don't really know...Probably? What we do know is that his music is terrible.
